

ABOUT

Rosemary Cottage is a specialist registered residential care home providing medium and long term residential care to those living with drug and alcohol related problems such as Wernicke-Korsakoff's syndrome and other mental health issues. The home caters for up to seven residents.

We are partnered with SMART Recovery who advocate self-empowering skills and support each other in recovery.

- Services are not provided to individuals who continue to use drugs or alcohol.

OUR PHILOSOPHY

We offer skilled and professional care to enable the individuals supported by us to achieve their optimum state of health and well-being.

We respect and encourage the individual uniqueness of residents, staff and visitors, and treat everyone with dignity and respect at all times. We encourage independence and the need for personal fulfilment, offering individualised programs of meaningful activities to satisfy the needs of residents and staff.

ASSESSMENT PROCESS

Rosemary Cottage strives to help residents to achieve greater independence, by providing a safe home and ongoing psychosocial support that is unique to each individual.

Careful assessments of each person admitted to the home is carried out and carers aim, with the residents involvement, to put a package of care and support in place that will enable each person to be as independent as possible.

We encourage the development of former skills and interests, as well as providing opportunities for new experiences to enrich residents lives. Additionally, by providing relapse prevention support in a safe and secure environment we intend to help our residents to achieve personal aspirations and maximise their abilities. The staff at Rosemary Cottage encourage links with a residents family; often lost when lives are disrupted by drug or alcohol abuse.

OUR MANAGER

Noel Leonard

Qualifications: BSc Psychology 2:1, MSc Forensic Psychology

Experience: Noel has an extensive background working in community and hospital based drug and alcohol support within Bath & North East Somerset, delivering accredited CBT rehabilitation programmes with HM Prison Service, and in specialist residential care homes. He brings these experiences together to support the residents of Rosemary Cottage.
