

A CARING TEAM

Each prospective employee is background checked for your peace of mind.

Hands on, client and care focused management team.

All staff are interviewed, and if successful, are only employed when satisfactory references and DBS have been received.

Prior to joining our team, all our staff receive full training and a comprehensive induction to ensure they provide care that attains our standards of excellence.

INNOVATORS OF CARE IN JERSEY

Our Home Care service can support you in the comfort of your own home. Our fully trained and regulated staff offer a range of professional care services.

OUR PROCESS

- We will come out and meet you and will listen to your goals and any questions you have about us, our services and what we can do for you.
- At your convenience, we will conduct our assessments so we can understand your needs in detail. We will consider your personal preferences, daily needs, as well as outcomes and goals.
- We will develop your personal care plan and provide options to meet your individual needs and lifestyle.
- Finally we will begin your Care Package and follow-up with weekly Care Package reviews for the first month to ensure that both parties are happy with your Care Package and the team. We will then review your care package every six months or sooner if required.

LV Home Care is a member of the LV Care Group. The LV Care Group offers a wide range of care and medical services through our Residential & Nursing homes and Pharmacy.
